Product & Design Catalogue 2026

Smart switches, sockets, climate control, curtains, locks, sensors and designer panels — 161 designs, all running on an on-site Ultra Edge controller.

WhatsApp +92 300 106 6683

Choose your designs

Every design in this catalogue has a code. Browse, note the codes you like and send them to us — we'll build your proposal around your choices, with every device, rating and finish confirmed after a site survey.

1

Browse the collections and note the codes you like, e.g. **UE-AU-03**.

2

WhatsApp the codes to +92 300 106 6683 with your city and project stage.

3

We survey, design and send a written proposal. Mix collections room by room if you like.

Three levels for homes

Essentials

App and voice control for lights, fans, geysers and sockets. A simple, app-based start for apartments and first smart homes.

Edge

Our flagship. An on-site controller runs your home locally — it keeps working through internet outages and, with a UPS, load-shedding.

Signature

Designer metal, stone and glass panels and wall screens with Edge inside. By design consultation.

Inside this catalogue

AU	Aura	Curved-glass touch switches	23 designs	3
FA	Facet	Framed glass, metal edge	8 designs	6
